Release of Convicted Accused: Overview

- NCRB does not publish national aggregated statistics on convicted rapists released.
- Conviction Rate: Remains low (22%–28%). Acquittals form the majority due to hostile witnesses, lack of evidence, and delays.
- Prison administration is a 'State Subject'. Premature release decisions are made by State Sentence Review Boards (SSRBs).

Reasons for Release

1. Remission (Premature Release)

→ Granted for 'good behavior' after 14-year minimum. Example: 11 Bilkis Bano convicts released by Gujarat govt (struck down by SC in 2024).

2. Parole / Furlough

→ Temporary release for emergencies or societal ties. Example: Gurmeet Ram Rahim receiving recurrent parole.

3. Completion of Standard Term

→ Routine release for non-life imprisonment convictions.
